

With Love From Jesus (WLFJ): Organization Overview

About Us

With Love From Jesus (WLFJ) is a nonprofit organization that designs and delivers evidence informed education and health interventions to reduce poverty and expand opportunity in underserved communities. We believe that meaningful, lasting change is achieved by addressing the structural barriers that limit people's ability to learn, stay healthy, and reach their full potential.

Our work combines compassion with evidence, focusing on practical interventions that are measurable, sustainable, and responsive to the needs of the communities we serve.

Our Focus Areas

Education

Education is one of our primary areas of intervention. We work to remove barriers that prevent children and young people from accessing quality education through scholarships, school fee support, learning resources, mentorship, and other initiatives that improve educational outcomes.

Health

We develop and support health interventions that improve access to essential healthcare while promoting healthier communities. Our programs include health education, preventive care initiatives, medical outreach, and projects that address the social determinants of health.

Our Approach

Every program begins with understanding the needs of the community. We design interventions that are practical, evidence informed, and capable of producing meaningful, long term impact. We are committed to measuring outcomes, learning from our work, and continuously improving the effectiveness of our programs.

Who We Serve

WLFJ serves children, families, and underserved communities facing barriers to education, healthcare, and economic opportunity. We prioritize reaching those whose circumstances place them at greater risk of being left behind.

Our Vision

We envision communities where every individual, regardless of socioeconomic background, has access to the education, healthcare, and opportunities needed to thrive.

Website Goals

The website should communicate that WLFJ is:

- An evidence informed, impact driven nonprofit.
- Focused on education and health as pathways to reducing poverty and expanding opportunity.
- Professional, credible, transparent, and community centered.
- Committed to sustainable interventions rather than short term relief.

The website should make it easy for visitors to:

- Understand our mission and approach.
- Learn about our programs and impact.
- Apply for or benefit from relevant initiatives where applicable.
- Partner with us through donations, volunteering, or strategic collaborations.
- Follow our work through stories, updates, and reports.
